gabriel-port-zeta.vercel.app | github.com/gabrielgutz18

SUMMARY

Computer Engineering graduate with hands-on experience in network infrastructure, web development, and systems integration. Proactive problem solver with strong attention to detail, adaptable to new tools and technologies, and skilled at managing multiple projects simultaneously.

WORK EXPERIENCE

Intern (OJT), NQSTV - Inquisitive Cost and Contract Training and Consultancy Services Feb 2026 - May 2026

Liliw, Laguna | 450 Hours

- Prepared Cost Plan in Excel for Construction project by encoding material names, unit prices, quantity units, and computed total across Structural, Plumbing, Architectural, Electrical, Fire Protection, and Mechanical trades.
- Configured network infrastructure and performed client PC maintenance, ensuring stable and reliable office connectivity.
- Deployed a Network Attached Storage (NAS) file server using TrueNAS with ZFS RAID, and established secure remote access via Tailscale VPN, enabling seamless file sharing between office branches.
- Built and launched a company portfolio website with a custom domain, live chat, contact form, SEO optimization, and Content Security Policy (CSP), achieving Lighthouse scores of 99 Performance, 100 Best Practices, and 91 SEO.
- Designed and developed the FILER application, a Python/Tkinter desktop tool for construction project file organization, featuring trade-based folder automation, a drag-and-drop file manager, and a dashboard with pie chart analytics.
- Designed and edited social media promotional materials (pubmats) using Canva for consistent brand visibility across platforms.

PROJECTS

Website Developer, NQSTV Company Website (nqstv.net)

Feb 2026 - May 2026

- Built and deployed a full company portfolio website from scratch using HTML, CSS, and JavaScript, hosted on GitHub Pages with a custom GoDaddy domain.
- Integrated EmailJS contact and enrollment forms, Crisp live chat, cookie consent, and SEO optimizations, achieving Lighthouse scores of 99 Performance, 100 Best Practices, and 91 SEO.
- Implemented UI features including an animated logo, particle effects, responsive project carousel with drag and swipe support, glow animations, and a custom AI-generated mascot character.

Website Developer, Camp Ba-long Resort (https://camp-ba-long.vercel.app/)

July 2026 – August 2026

- Built a resort booking system with React, Tailwind, and Supabase, including a multi-step booking flow with QR receipt upload and admin approval.
- Prevented double-bookings using Postgres constraints and a 10-minute hold system for guests booking the same slot.
- Built an admin dashboard with a CMS-style CRUD system for managing accommodations, food, and spa service listings, plus Excel export for reporting.

Developer, FILER - Construction File Organizer (github.com/gabrielgutz18/FILER)

March 2026

- Designed and developed a Python/Tkinter desktop application for automated construction project file management, with trade-based folder generation and a dual-pane drag-and-drop file manager.
- Implemented a dashboard with pie chart analytics using Matplotlib and an Advanced Reorganizer for bulk file restructuring.

Website Developer, Personal Portfolio Website (gabriel-port-zeta.vercel.app)

2025 - Present

- Designing and developing a personal portfolio website using React.js and TypeScript, deployed on Vercel, to showcase skills, projects, and professional background.

EDUCATION

Bachelor of Science in Computer Engineering, Pamantasan ng Lungsod ng San Pablo

2022 - 2026

San Pablo City, Laguna

Senior High School - STEM, Saint Mary's Academy of Nagcarlan

2020 - 2022

Nagcarlan, Laguna

Junior High School, Saint John The Baptist Academy - Graduated with Honors

2016 - 2020

Liliw, Laguna

CERTIFICATIONS

- Fireside Chat: Auditing Artificial Intelligence - Risk, Opportunities, and Leading Practices (September 2025)
- Google Developer: Building a Web Solution using Gemini and Firebase Studio Workshop (September 2025)
- SimpliLearn / SkillUp: CCNA 200-301 Network Fundamentals (January 2025)

SKILLS

Programming: Python, JavaScript, HTML5, CSS3, React.js, TypeScript, C++, MySQL

Tools & Platforms: Git/GitHub, Vercel, Supabase, GoDaddy, TrueNAS, VS Code, Cursor

Creativity Tools: Canva

AI Tools: GPT Codex, Claude Code, Gemini, Cursor

Hardware & Systems: Network Troubleshooting & Maintenance, System Troubleshooting & Maintenance, OS Installation, Arduino IDE, Raspberry Pi, Pixhawk Ardupilot

Soft Skills: Proactive, Adaptability, Multitasking, Attention to Details, Problem-Solving, Critical Thinking, Creativity, Communication, Willingness to Learn
